

## MODEL US 30P CREMATED REMAINS PROCESSOR

**DIMENSIONS:** 18" WIDE, 26" HIGH, 18" LENGTH  
**ELECTRIC:** 120 or 240 Volts, 60 Hz, Single Phase, 30 Amps  
**WEIGHT:** 250 lbs

U. S. Cremation Equipment's Model US 30P Cremated Remains Processor is compact, light weight and extremely durable. Designed to easily fit on a table or counter-top it can also be supplied with an optional base equipped with casters and used as a portable processing station.

The stainless steel cremated remains receptacle is equipped with handles and a dust proof lid. The processing blades are made of heavy duty carbon steel powered by a 1 hp electric motor. It is a belt drive system. The unit plugs into any standard electrical outlet with 30 Amp service.

The total processing time is approximately 30 seconds. The unit is quiet and will reduce cremated remains to a consistency of sand and to a quantity that will easily fit into a 200 cubic inch memorial urn. The Model US 30P is the perfect companion to U.S. Cremation Equipment's "Classic" cremator.
